### LIST AS PER NCH

#### A] LIST OF INSTRUMENTS

| Details of Items/Equipment etc. available as per Part III Sec. 4 MES 2024<br>[ ( See sub clause (i) of cluse (d) of sub- paragraph (11) of paragraph – B of the first schedule)] |                                     |          |           |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------|----------|-----------|
| Sr. No.                                                                                                                                                                          | Name of instrument                  | Required | Available |
| 1                                                                                                                                                                                | Sim's speculum                      | 01       | 07        |
| 2                                                                                                                                                                                | Cusco's speculum                    | 01       | 04        |
| 3                                                                                                                                                                                | Anterior vaginal wall retractor     | 01       | 03        |
| 4                                                                                                                                                                                | Cervical dilators                   | 01       | 01        |
| 5                                                                                                                                                                                | Simple rubber catheter              | 01       | 01        |
| 6                                                                                                                                                                                | Uterine curette                     | 01       | 01        |
| 7                                                                                                                                                                                | Sponge holding forceps              | 01       | 01        |
| 8                                                                                                                                                                                | Allis tissue forceps                | 01       | 06        |
| 9                                                                                                                                                                                | Artery forceps                      | 01       | 01        |
| 10                                                                                                                                                                               | Doyen's retractor                   | 01       | 01        |
| 11                                                                                                                                                                               | Babcock's forceps                   | 01       | 05        |
| 12                                                                                                                                                                               | Needle holder                       | 01       | 03        |
| 13                                                                                                                                                                               | Toothed forceps                     | 01       | 01        |
| 14                                                                                                                                                                               | Non toothed forceps (plane forceps) | 01       | 01        |
| 15                                                                                                                                                                               | Episiotomy scissors                 | 01       | 02        |
| 16                                                                                                                                                                               | Mayo's scissors                     | 01       | 01        |
| 17                                                                                                                                                                               | Towel clip                          | 01       | 02        |
| 18                                                                                                                                                                               | Vulsellum                           | 01       | 04        |
| 19                                                                                                                                                                               | Cord clamps                         | 01       | 01        |
| 20                                                                                                                                                                               | Obstetric forceps                   | 01       | 01        |
| 21                                                                                                                                                                               | Foley's catheter                    | 01       | 01        |

#### B] LIST OF SPECIMEN

| Sr. No. | Name                          | Required | Available |
|---------|-------------------------------|----------|-----------|
| 1       | Normal uterus with cervix     | 01       | 01        |
| 2       | Placenta with foetalmembranes | 01       | 01        |
| 3       | Uterine fibroid               | 01       | 01        |
| 4       | Simple ovarian cyst           | 01       | 01        |
| 5       | Chocolate cyst                | 01       | 00        |
| 6       | Abortus                       | 01       | 01        |

#### C] LIST OF MODELS

| Sr. No. | Name                              | Required | Available |
|---------|-----------------------------------|----------|-----------|
| 1       | Dummy pelvis                      | 01       | 01        |
| 2       | Dummy baby                        | 01       | 01        |
| 3       | Labor maneuver                    | 01       | 01        |
| 4       | Foetal skull                      | 01       | 02        |
| 5       | Female Pelvis, placenta with baby | -        | 01        |

|   |                                         |                                                                                         |
|---|-----------------------------------------|-----------------------------------------------------------------------------------------|
| 1 | Total number of Charts                  | 113                                                                                     |
| 2 | Total Numbers Models                    | 40                                                                                      |
| 3 | Number of Equipments for identification | 108                                                                                     |
| 4 | Total Number of Specimens               | 51                                                                                      |
| 5 | Additional Items                        | Transparencies - 164, Dead Stock - 46, Projection Slides-42, Contraceptive devices - 06 |

### (1) LIST OF CHARTS (Total 113)

|     |                                                    |    |     |                                                    |    |
